FEELING TONGUE TIED? START WITH THIS:

Hello, my name is _____ and I am calling as a voting constituent to urge [member of congress] to protect the Deferred Action for Childhood Arrivals (DACA).

DACA has made it possible for 800,000 young people to thrive in the US by protecting them from deportation. Every young person should feel safe and protected in this country regardless of gender, race, class, age, religion, sexual orientation, ability, or immigration status.

What is my member of congress doing to protect DACA? My vote is on the line.
